Your financial advisor and Voya representative will be available to support you in the initial setup and ongoing maintenance of your Tomorrow's Scholar Group 529 plan.

# A Comprehensive 529 Plan as Part of a Comprehensive Benefits Package

A growing number of employers are offering employees a chance to invest for one of life's most important financial goals. Tomorrow's Scholar is designed to offer the investment flexibility and prominent asset managers to attract a wide range of employees to the program. Tomorrow's Scholar offers three ways to invest, including age-based and risk-based investment options to help take the guesswork out of investing.

## Three Ways to Invest

- **By Age** — Portfolio automatically and gradually reallocates to more conservative postures over nine "age bands" as the child approaches college age
- **By Risk Level** — Investors can customize portfolio based on overall risk profile using five distinct risk-based options
- **By Building a Portfolio** — For do-it-yourself investors, there's a selection of 18 single fund options across a spectrum of styles, managers and asset classes

## The Strength of a Multi-Manager Program

- Tomorrow's Scholar provides access to well-recognized asset managers, names like BlackRock, JP Morgan, Lazard, TIAA-CREF and Voya
- Each is an expert in one or more investment areas covered among the investment options
- Voya Investment Management's Multi-Asset Strategies and Solutions (MASS) team selects managers, performs custom risk analysis and monitors the underlying portfolios on an ongoing basis

Nine **age-based** options that automatically reallocate as child reaches college age<sup>1</sup>

Five static **risk-based** portfolios

There are certain risks associated with each investment option. Please see the Program Description for additional information. Holdings are subject to change.

<sup>1</sup> The Age-Based Options are designed for college savings and may not be appropriate for K-12 investment horizons.

You can help your employees reach their education funding goals.
